THURSDAY, MAY 17, 1866.

In our report of the yeas and nays on the Constitutional Amendment, the name of the Hon. Thomas Williams was altogether omitted. He voted yea.

Some weeks ago President Johnson availed himself of several occasions publicly to declare that he held in detestation the treachery of Tyler and Fillmore to the political associates by whom they were elevated to the height of power, and that he should carefully avoid following their example. A correspondent of the London *Times*, writing from Washington at about the date of these Presidential declarations, details minutely a conversation he had with the President. His letter has, within a few days, been published in full in the New York journals. He states that Mr. Johnson admitted to him that his object was to drive the Republicans out of power, and to place the control of the government, in all its departments, in the hands of the late rebels and their northern sympathizers. Every careful observer of events knows that this is the end to which all the efforts of the President tend. It is easy, therefore, to estimate the degree of sincerity with which he professes to be fighting his quarrel out inside the Republican lines.

Secretary Stanton did not, either in Cabinet meeting or any where else, give his assent to the Presidential programme of reconstruction. The report to that effect was prepared in the Executive Chamber and sent to the Associated Press. This report was followed by another from the same quarter, stating if the Secretary was not there consenting, it was due to himself and the public to come out and say so. It was simply a trick to draw him into a position where he could be charged with "denouncing the President." It did not succeed. What next?

A former slave has brought suit before the Freedmen's Bureau at Nashville for damages. Her father was a free man of color, and married a slave; then bought her. A child was born before the purchase of the wife. Afterwards this child was bought in the name of a friend. After the death of the parents, this friend claimed the child and the property to which she was heir, and held them. Hence the suit. Verdict for the child.

The President has vetoed the bill admitting the Territory of Colorado as a State of the Union. In his annual message to Congress, at the opening of the present session, this same President earnestly urged Congress to pass this very bill.

At New Albany, Ind., on the 15th inst., the jury in the case of Dr. Newland, indicted for the murder of the seducer of his daughter, brought in a verdict of not guilty; a feeling that justice had been done prevailed against the letter of the law.

When a rebel, condemned by the laws to "take a back seat," wearies of that position, he gets nominated to some high office, and has his nomination reported to the President with an application for pardon. Then the pardon is sure to issue.

Mr. Daniel J. Morrell, of Johnstown, is named by a correspondent of the Huntingdon *American*, in connection with the Republican nomination for Congress in the district composed of Mifflin, Huntingdon, Blair and Cambria counties.

Mr. G. W. Schofield is having trouble in securing a renomination to Congress from the Republicans of the Warren and Erie district. The Erie *Dispatch* says it will not support him under any circumstances.

Albert B. Sloanaker has been confirmed by the Senate as Collector of Internal Revenue for the first district of Pennsylvania, and Josiah P. Hetrick for the eleventh.

The Soldiers' Campaign League of Huntingdon county have appointed Lt. W. B. Zeigler and M. M. Logates delegates to the Convention to be held in this city June 5th.

Hon. S. P. McCalmont is announced as a candidate for Congress, subject to the usages of the Republican party in Venango county.

The Titusville *Herald* urges the Republicans to nominate Mr. D. A. Finney for Congress in that district.

The Republicans of Lawrence county nominate on the 28th instant; of Fayette, on June 5th.

The Republican nominating Convention for Beaver county, will meet on the 28th inst.

Liverpool, May 5.—Two tugs left Queenstown to assist the steamship City of Washington, reported to have passed Cape Clear last evening.

The political situation continues critical.

Paris, May 5.—The *Moniteur Diplomatique* denies that France has made energetic remonstrances at Vienna relative to Austrian armaments in Venetia, and says that the dispatch sent to Vienna on the subject was couched in the most cautious terms, and solely requested explanations respecting the object of Austrian preparations. The Austrian government replied, protesting it would maintain a strictly defensive attitude.

The reply accepted these explanations, and the result was a mutual understanding, according to which Austria undertakes, should it attack Venetia independently of France, not to secure for herself any of the eventual results of victory, without the diplomatic intervention of France. It is asserted that one object of Austria in making this treaty is to force England to assent to the convention of a European Congress.

Postoffices Reopened—Capt. Fox Going to Russia.

Washington, May 16.—The Postmaster General has, during the last month, ordered Postoffices reopened, as follows: 4 in Virginia, 3 in North Carolina, 10; South Carolina, 9; Tennessee, 28; West Virginia, 5; Georgia, 16; Mississippi, 81; Alabama, 14; Louisiana, 16; Arkansas, 8; Texas, 27; total, 253.

Capt. Fox, Assistant Secretary of the Navy, will cross the ocean in the monitor Miantonomah, now awaiting him at Halifax, to personally present to Emperor Alexander of Russia the resolution of Congress congratulating him on his escape from assassination. Capt. Fox will also examine and report upon the condition of the principal navies of Europe.

Cotton Factory Burned—Insured—New York Collector Arrested.

New York, May 16.—A fire occurred in Brooklyn this morning in the cotton packing establishment of J. B. Blanchard & Co. The whole building, occupied by Irving, Sawtell and Van Brunt stores, was destroyed, together with the contents, consisting of a large quantity saved from the recent fire in New York. The loss on the building is \$70,000; owned by Chas. Kelsey, ten thousand dollars.

Mr. Smythe accused the collectorship this morning. The old deputies were re-appointed, and there have been no changes of subordinates thus far.

Steamer Sailed—Specie for Europe.

New York, May 16.—The Scotia sails at noon taking \$1,000,000 in specie. The Saxparod also sails, taking \$250,000 in specie.

A Correction.
A correction of a word in my article referring to Dr. Sill & Co.

The word just "pulled," should have been just "filled." To extract a tooth to retain it would seem a strange course to those wishing to save their good natural teeth. Drs. Sill & Gillespie are very skilful Dentists, and the typographical error made does them great injustice.

Extensive Wholesale Hat Store.
We recommend country merchants, and all who deal in Hats and Caps, to call and examine the stock of Hats and Caps at the extensive and popular house of Wm. L. Fleming, No. 139 Wood street. This establishment has the most complete stock of all the new styles of Gents and Youths' and Children's Felt and Wool Hats. Men's and Boys' Straw Goods, Ladies' and Misses' Hats, trimmed and untrimed, to be found in the city.

Balloon Ascension Postponed.
Owing to the inability of Dr. Sill, the dentist, No. 246 Penn street, to supply with laughing gas the monster balloon advertised to ascend yesterday, the ascension has been postponed. In justice to Dr. Sill, we would inform the disappointed community that it was a matter of impossibility for him to keep his contract to supply the mammoth balloon with gas. The extensive reservoirs were charged yesterday morning, but before noon there came hundreds upon hundreds of suffering parties to have their teeth extracted without pain, and soon the laughing gas intended to inflate the balloon was exhausted. Dr. Sill regrets the disappointment, but he could not turn the suffering multitude from his doors. If the rush at his establishment can be abated the promised balloon ascension will take place at an early day.

Peace hath its Victories.
To prevent or conquer disease is a grand achievement; and as surely as bullet and bayonet will destroy, so surely will Hostetter's Bitters preserve and prolong life.

This is the most trying period of the year. The stamina of the strongest yields more or less to the consuming temperature of midsummer. Vigor oozes from every pore. The strength of man passes away in invisible vapor, and weaker woman becomes relaxed and nerveless. It was to meet such difficulties that Hostetter's Bitters were given to society. It is to prevent the evil consequences to which an unbraced, depleted, debilitated organization is liable, that they are recommended as a Summer Tonic for both sexes. Old people die of exhaustion every day, who might have kept death at bay for years to come, by an occasional resort to this powerful and harmless peace table stomachic.

Nine tenths of the community, rich as well as poor, work continually. If their hands are unemployed their brains are busy, and head work is as depressing to the nervous energies as muscular toil. But tone the system with Hostetter's Bitters and the wear and tear of business life will be comparatively unfelt even in the most oppressive weather. No languor will be experienced, for as fast as the vital forces are expended they will be recruited and renewed by this healthful restorative. As a summer invigorant it is indispensable to young and old. Sold everywhere.

Hostetter's Bitters
are sold wholesale and retail at very low rates at Fleming's Drug and Patent Medicine Depot, No 81 Market street, corner of the Diamond and Market, near Fourth street.

COL. DOWNEY DISOBEYING ORDERS.

New York, May 16.—Organizer Stephens was engaged to-day in receiving deputations of various circles in the Manhattan district, some of whom presented him with subscriptions towards the Fenian cause. The amount realized from the demonstration at Jones' Woods yesterday, was about three thousand dollars. This morning Mr. Stephens deposited the amount he received since his arrival in this city in one of the leading banks down town.

It is stated that the lease and furniture of the Union Zouave headquarters will be sold immediately, for the purpose of raising money for the Head Centre.

No vessel, either national or foreign, without excepting steamers, mail or coasting vessels, will be allowed until further orders, to come in during the night.

Circular to Customs Collector.

Washington, May 16.—The following circular to the Collectors of Customs on the northern, western, and northwestern frontiers of the United States has been issued from the Treasury Department:

Washington, May 9, 1866. Much annoyance has been occasioned in the enforcement of the regulations concerning invoices of importations from the Canadas and New Brunswick by railroad and otherwise, and particularly in the case of importations of small value, which are very numerous, and frequently unaccompanied by proper invoices and consular certificates, and whereas the time and expense required to obtain the latter are so disproportionated to the value of goods as in effect to render the production of invoices and certificates impracticable; and whereas, second, the provisions of the first section of the act of March 3d, 1863, chapter 7612, statutes 738, in cases where the production of invoices is impracticable, is empowered the Secretary of the Treasury to authorize the entry upon such terms, and in accordance with such general or special regulations as he may prescribe, you are therefore instructed to admit to entry by appriasement, goods from the above named provinces, that are unaccompanied by invoices or Consular certificates, if not the result of fraud, and that needless or disproportionate expense and annoyance would be incurred in obtaining them.

If this is a very important duty, involving the security of the public revenue and the freedom of trade from useless and vexatious restrictions, the special attention of Collectors is called to the necessity of the utmost care in carrying this regulation into effect, and not extend its operations beyond the precise limitations and conditions prescribed.

BILL FOR EQUALIZATION OF BOUNTIES.

Washington, May 16.—The following is the President's message vetoing the Colorado Admission Bill:

To the Senate of the United States:—I return to the Senate, in which house it originated, the bill which has passed both houses of Congress, entitled An Act for the Admission of the State of Colorado into the Union, with my objections to its becoming a law at this time. First—From the best information which I have been able to obtain, I do not consider the establishment of a State Government at present necessary for the welfare of the people in Colorado. Under the existing territorial government, all the rights, privileges and interests of the citizens are protected and secured. The qualified voters choose their own legislators and their own local officers, and are represented in Congress by a delegate of their own selection. They make and execute their own municipal laws, subject only to revision by Congress, an authority not likely to be exercised unless in extreme or extraordinary cases. The population is small, some estimating it so low as twenty-five thousand, while the advocates of the bill reckon the number at from thirty-five to forty thousand. The people are principally recent settlers, many of whom are understood to be ready for removal to other mining districts beyond the limits of the territory, if circumstances shall render them more inviting. Such a population cannot but find relief from excessive taxation, if the territorial system, which devolves the expenses of the executive, legislative and judicial departments on the United States, is, for the present, continued. They cannot but find the security of person and property increased by their reliance upon the national executive power for the maintenance of law and order against the disturbances necessarily incident to all newly organized communities.

Second. It is not satisfactorily established that a majority of the citizens of Colorado desire, or are prepared, for an exchange of a territorial for a State government. In September, 1864, under the authority of Congress, an election was lawfully appointed and held, for the purpose of ascertaining the views of the people upon this particular question. Six thousand one hundred and ninety-two votes were cast, and of this number, a majority of three thousand one hundred and fifty-one were given against the proposed change. In September, 1865, without any legal authority, the question was again presented to the people of the Territory, with a view of obtaining a reconsideration of the result of the election, held in compliance with the act of Congress, approved March 21st, 1864. At this election 5,905 votes were polled, and a small majority of 153 was given in favor of a State organization. It does not seem to me entirely expedient that the last mentioned, irregularly obtained, to outweigh the one which had been legally obtained in the first election. Regularity and conformity are essential to the correct working of order and liberty in a republic, and should, as far as practicable, always be observed in the formation of new States.

Third. The admission of Colorado at this time as a State into the Union, appears to me to be incompatible with the public interests of the country. While it is desirable that Territories, as all the United States, without exception, organized as States, yet the spirit of the Constitution seems to require that there should be an approximation towards equality among the several States admitted into the Union. A State can have less nor more than two Senators in Congress. The largest State has a population of four millions; several other States have populations of two millions; and Nevada, the youngest State, was writing many others have a population exceeding one million.

If this bill should become a law, the people of Colorado, thirty thousand in number, would have in the House of Representatives one member, while New York, with a population of four millions, has but thirty-three. Colorado would have in the Senate two votes, while New York has no more. The creation of this character have already occurred, but it is believed none have happened where the inequality was so great. Where, heretofore, there has been allowed, Congress is supposed to have permitted it on the grounds of some high public necessity, and under circumstances which promised that it would rapidly disappear through the growth and development of the newly admitted State. This is exemplified in several States which was formerly called the northwest territory, lying east of the Mississippi. Their rapid advance in population rendered it certain that each State, admitted with only one or two Representatives in Congress, would, in a very short period be entitled to a great increase in representation. So, in the case of California admitted, on the ground of commercial and political exigencies, it was well foreseen, for that State was destined rapidly to become one of the most prosperous and populous mining and commercial community. In the case of Colorado I am not aware that any national exigency, either of a political or commercial nature, requires a departure from the law of equality, which has been so generally adhered to in our history. If the information submitted in connection with the bill is reliable, Colorado instead of increasing has declined in population. At an election for members of a Territorial Legislature, held in 1861, 10,580 votes were cast. At the election in 1864, preliminary to the admission of the State, in November, 1864, the number was 6,192, while at the regular election, held in 1865, which is assumed for a basis of legislative action at this time, the aggregate number of the votes was 5,905.

Sincerely anxious for the welfare prosperity of every Territory and State, and as well as the prosperity and welfare of the whole Union, I regret this apparent decline of population in Colorado; but it is manifest that it is due to emigration which is going on from that Territory into other regions within the United States, which either are, in fact, or are believed by the inhabitants of Colorado, to be richer in mineral wealth and agricultural resources. If, however, Colorado has not really declined in population, another census or another election under authority of Congress would place the question beyond a doubt, and cause but little delay in the ultimate reception of the Territory as a State, if desired by the people.

The tenor of these objections furnishes the reply which may be expected to an argument in favor of the measure, derived from the enactment which was passed by Congress on the 21st day of March, 1864. Although Congress then supposed that the condition of the territory was such as to justify its admission as a State, the result of two years' experience shows that every reason which existed for the institution of a territorial instead of a State government in Colorado, on the first organization, still continues in force. The condition of the union at the present moment is calculated to inspire caution in regard to the admission of new States. Eleven of the late States have been for some time and are still unrepresented in Congress. It is a common interest of all the States, as well those represented as those not represented, that the integrity and harmony of the Union should be restored as completely as possible, so that all those who are expected to bear the burdens of the general government shall be consulted concerning the admission of new States, and that in the meantime no new State shall be prematurely created, calculated to disturb the present relation in political power which the Federal Government wields, not for the benefit of any individual States or section, but for the common safety, welfare and happiness.

The Fort Goodwin Massacre.

CONTRADICTORY REPORTS ABOUT IT

San Francisco, May 14.—A letter from Chas. Hamilton, dated Williams' Fork, Arizona, April 30th, seems to confirm the massacre at Fort Goodwin. He states that the massacre occurred ten days previous, and that of two companies of regulars of the Third and Fourteenth regiments, consisting of one hundred men, only seven escaped. The remainder were murdered and scalped. The Apaches reaped a rich harvest, carrying off arms, ammunition, commissary stores, &c. A number of supposed friendly Indians were admitted into the fort and suppriced the garrison. A tribe called the Hualopes had murdered one man and committed other outrages in the vicinity of Williams' Fork. Lieut. Cervantes, of Company A, with twenty-six men, attacked the Apaches forty miles east of Camp Lincoln, about March 24th, killing twenty-two, wounding five, and capturing two. The same party was planning an attack upon the large reaches.

The military authorities have information from General Mason, dated April 25th, who says nothing about the massacre at Fort Goodwin. A letter with a late date from Yale, discredits the report. It is now believed here that the 14th regulars could not have reached Fort Gibson before April 29th. Dispatches received at military headquarters from General Mason, dated April 30th, say the reported massacre at Fort Goodwin is without foundation.

The steamer Americo Merry, for San Juan Del Sur, sailed, carrying one hundred and twenty-five thousand dollars treasure for New York.

CONGRESSIONAL PROCEEDINGS.

Washington, May 16, 1866.

SENATE.

The Colorado Admission Bill Veto Message was read and ordered to be printed and laid upon the table.

Mr. Wilson introduced a bill to fix the military peace establishment of the United States, which was referred to the Military Committee. It provides that the army shall consist of five artillery and six cavalry regiments now in the service, thirty-seven regiments of infantry, and the professors and cadets of the military academy. The companies shall consist of sixty-four privates as a minimum, and eighty-two as a maximum, to be enlisted five years.

Section nineteen of Senator Wilson's bill authorizes the establishment of schools at posts, garrisons and permanent camps, for the instruction of soldiers in letters. It requires the Secretary of War to detail suitable non-commissioned officers and other enlisted men, and the post commander to set apart a suitable room for building purposes.

Section twenty prohibits the appointment in the army of a person who has served in any capacity in the military or naval service of the rebels.

Section twenty-one abolishes sutlers, and directs the Quartermaster' departments to furnish such articles as may be designated by the Inspector General, and sell the same to soldiers at cost prices; if not paid for at the time, to be stopped from the next payment.

Section twenty-two repeals all laws or parts of laws inconsistent herewith.

Mr. Grimes said of Mr. Sumner's amendment that one of the gents to be benefitted by the move was Mr. Harvey, a Minister to Portugal, who was the person who notified the rebels that Fort Sumter was about to be fired upon. He had also recently written a letter to the Secretary of State advising the President to eject the present Congress.

Mr. Wade said the charge of Mr. Grimes was unmanly, and ought not to have been introduced here. It had nothing to do with the question before the Senate. As to the accusation that Mr. Harvey had given information to the rebels, he (Wade) believed Mr. Lee, Mr. Jam Preston, John Protheral, Henry Ludlow, George Shatterly, Richard Smith, R. S. Smith, W. Spaulding, Senator Sloane, Senator Swope, L. P. Taylor, W. P. Ten Broeck, M. A. Tolman, H. E. Tschudy, William White, and William Wilson.

Mr. Sumner being entitled to three lay delegates making ninety in all the roll of those delegates were ordered to be next called by the Secretary.

About thirty answered to their names, when the President announced that a quorum being present the next business before the convention was the nomination of officers to be chosen by the Convention. The following gentlemen, were put in nomination and unanimously elected.

Secretary—Rev. A. Ten Broeck.

Treasurer of the Convention and Christian Fund—Thos. M. Howe.

Standing Committee—Rev. C. E. Swope and T. Ten Broeck.

Board of Missions—Rt. Rev. J. B. Kerfoot and Rev. R. S. Smith.

Treasurer—Geo. C. White.

The hours for the convening and adjourning of the Convention was then fixed at the following times: The Convention to remain in session from 9 o'clock A. M. until one o'clock P. M., and from three o'clock P. M. until six P. M.

A delegate requested the Committee on Amendments to the Constitution to hand in their report, as it was now in order, as well as that of the Committee on Unfinished Business.

The Chairman of the Committee replied that amendments to the Constitution begged leave to state that the report of the committee would be ready to lay before the Convention at an early hour to-morrow.

Hon W. F Johnston offered the following:

Resolved, That in order to expedite the business of the convention, it would be advisable to call the list of delegates without regard to County lines, and the order of their admission into the union of the convention.

Mr. Washburne, of Illinois, reported from the Committee on Commerce, a bill further to provide for the safety of the lives of passengers on steamships. He stated that it contained a section to prevent the transportation of nitro-glycerine, and also a measure to modify the construction given to the existing law in reference to crude petroleum or coal oil. That construction, he said, prevented the shipment of the article, which had become important to commerce. The bill was read a third time and passed.

Mr. Myers, from the Committee on Patents, reported a bill to authorize Delia A. Jacobs, administratrix of Jesse Fitzgerald, to apply for an extension of a patent issued to him in 1847, for improved dressing for tree nails. The bill passed—yeas 88, and nays 31.

Mr. Myers, from the same Committee, reported a bill authorizing the Commissioner of Patents to hear and determine on applications for an extension of the patents of Wm. Mann, for an improvement in copying paper, and of Jacob Sennett, for an improvement in treadles, they not having made their applications ninety days before the expiration of their patents. The bill was passed.

Mr. Bromwell, from the same Committee, reported a bill extending for seven years, from the sixth day of December, 1866, the patent of Thomas D. Burrell, for an improvement in a corn sheller.

Mr. Dawes, of Massachusetts, spoke in opposition to the bill, stating that there was no application before the House as to why the extension had not already sufficient profit from his patent.

Mr. Bromwell spoke in defence, and in explanation of the bill. The bill was passed.

The morning hour having expired, the Speaker presented a communication from the Postmaster General, transmitting, in compliance with the act of Congress of July 2d, 1863, abstracts of offers received and contracts made, and allowances made to contractors for mail service. Laid on the table.

The House went into Committee of the Whole on the state of the Union, Mr. Dawes in the chair, and resumed consideration of the tax bill.

The paragraph amending section 74 of the present law was under consideration.

Mr. Stevens moved, and ought, to strike out the allowance of a half penalty for the informer, for assessment monthly of the sales of wholesale dealers within the year above fifty thousand dollars, for assessing tax of wholesale dealers whose sales do not exceed fifty thousand dollars, from fifty to one hundred dollars; fixing the tax of distillers of apples, grapes, or other fruits, fifty cents per gallon, and less than one thousand barrels per annum, at fifty dollars, and those distilling less than fifty barrels, twenty dollars.

Mr. Kasson offered an amendment increasing the license of distillers from \$100 to \$1,000, the object being to put down small distillers, who are using cereals exclusively.

Mr. Stephens opposed it, suggesting that the license should rather be reduced to \$50. The amendment was rejected. Twelve pages of the bill were disposed of, when the Committee rose.

A number of Bills on the Speaker's table were referred.

At the fire in Brooklyn this morning, Buchanan & Lyons tobacco factory, stock and machinery, were damaged by water and smoke to the amount of ten thousand dollars. About two hundred persons are temporarily thrown out of employment.

First Annual Convention of the Protestant Episcopal Church.

FIRST DAY.

The First Annual Convention of the Protestant Episcopal Church of the Diocese of Western Pennsylvania assembled yesterday at five o'clock, in Trinity Church, Sixth street.

The Convention was called to order by the Right Reverend John B. Kerfoot, in the chair. After stating the object for which they had assembled, he offered an impressive prayer—in which those present joined in—to the Throne of Grace, asking for guidance in the work before them that they might do nothing that would be in deviation from the path of truth and righteousness, but that each act should redound to their own spiritual benefit and to the honor and glory of God.

At the conclusion of the prayer the chair informed the convention that the first business was the appointment of a Secretary.

The chair having the power to appoint, the following gentlemen were appointed Secretary and Assistant Secretary—S. Greenleaf Fuller and Nicholas R. Huey.

A delegate stated that in the absence of the committee from the Parish of Monongahela, he was requested to ask that that parish be admitted into the Episcopate.

On motion carried.

The following list of churches, which were declared at a former convention to be in union with this diocese, was then called and the delegates from each requested to hand in their credentials:

The Clerical delegates are thirty in number, their names being at follows:

Right Rev. J. B. Kerfoot, D.D, Reverends William Hadderly, R. Avery, James Brown, Morrison Rythenbach, Nathaniel Evans, William Ely, S. Greenleaf Fuller' William Hilton, D. C. James, B. B. Killikelly Samuel T. Lord, Theodore Lyman, Henry Mackay, David Page, Calvin Pease, Alex. B. Penick, William Preston, John Protheral, Henry Ludlow, George Shatterly, Richard Smith, R. S. Smith, W. Spaulding, Senator Sloane, Senator Swope, L. P. Taylor, W. P. Ten Broeck, M. A. Tolman, H. E. Tschudy. William White, and William Wilson.

The parish being entitled to three lay delegates making ninety in all the roll of those delegates were ordered to be next called by the Secretary.

About thirty answered to their names, when the President announced that a quorum being present the next business before the convention was the nomination of officers to be chosen by the Convention. The following gentlemen, were put in nomination and unanimously elected.

Secretary—Rev. A. Ten Broeck.

Treasurer of the Convention and Christian Fund—Thos. M. Howe.

Standing Committee—Rev. C. E. Swope and T. Ten Broeck.

Board of Missions—Rt. Rev. J. B. Kerfoot and Rev. R. S. Smith.

Treasurer—Geo. C. White.

The hours for the convening and adjourning of the Convention was then fixed at the following times: The Convention to remain in session from 9 o'clock A. M. until one o'clock P. M., and from three o'clock P. M. until six P. M.

A delegate requested the Committee on Amendments to the Constitution to hand in their report, as it was now in order, as well as that of the Committee on Unfinished Business.

The Chairman of the Committee replied that amendments to the Constitution begged leave to state that the report of the committee would be ready to lay before the Convention at an early hour to-morrow.

Hon W. F Johnston offered the following:

Resolved, That in order to expedite the business of the convention, it would be advisable to call the list of delegates without regard to County lines, and the order of their admission into the union of the convention.

Mr. Washburne, of Illinois, reported from the Committee on Commerce, a bill further to provide for the safety of the lives of passengers on steamships. He stated that it contained a section to prevent the transportation of nitro-glycerine, and also a measure to modify the construction given to the existing law in reference to crude petroleum or coal oil. That construction, he said, prevented the shipment of the article, which had become important to commerce. The bill was read a third time and passed.

Mr. Myers, from the Committee on Patents, reported a bill to authorize Delia A. Jacobs, administratrix of Jesse Fitzgerald, to apply for an extension of a patent issued to him in 1847, for improved dressing for tree nails. The bill passed—yeas 88, and nays 31.

Mr. Myers, from the same Committee, reported a bill authorizing the Commissioner of Patents to hear and determine on applications for an extension of the patents of Wm. Mann, for an improvement in copying paper, and of Jacob Sennett, for an improvement in treadles, they not having made their applications ninety days before the expiration of their patents. The bill was passed.

Mr. Bromwell, from the same Committee, reported a bill extending for seven years, from the sixth day of December, 1866, the patent of Thomas D. Burrell, for an improvement in a corn sheller.

Mr. Dawes, of Massachusetts, spoke in opposition to the bill, stating that there was no application before the House as to why the extension had not already sufficient profit from his patent.

Mr. Bromwell spoke in defence, and in explanation of the bill. The bill was passed.

The morning hour having expired, the Speaker presented a communication from the Postmaster General, transmitting, in compliance with the act of Congress of July 2d, 1863, abstracts of offers received and contracts made, and allowances made to contractors for mail service. Laid on the table.

The House went into Committee of the Whole on the state of the Union, Mr. Dawes in the chair, and resumed consideration of the tax bill.

The paragraph amending section 74 of the present law was under consideration.

Mr. Stevens moved, and ought, to strike out the allowance of a half penalty for the informer, for assessment monthly of the sales of wholesale dealers within the year above fifty thousand dollars, for assessing tax of wholesale dealers whose sales do not exceed fifty thousand dollars, from fifty to one hundred dollars; fixing the tax of distillers of apples, grapes, or other fruits, fifty cents per gallon, and less than one thousand barrels per annum, at fifty dollars, and those distilling less than fifty barrels, twenty dollars.

Mr. Kasson offered an amendment increasing the license of distillers from \$100 to \$1,000, the object being to put down small distillers, who are using cereals exclusively.

Mr. Stephens opposed it, suggesting that the license should rather be reduced to \$50. The amendment was rejected. Twelve pages of the bill were disposed of, when the Committee rose.

A number of Bills on the Speaker's table were referred.

At the fire in Brooklyn this morning, Buchanan & Lyons tobacco factory, stock and machinery, were damaged by water and smoke to the amount of ten thousand dollars. About two hundred persons are temporarily thrown out of employment.

Hydrant Hose and Pipes.

We direct the attention of our readers to the card of the old and well-known business house of John Maffett, Nos. 127 and 129 First street. Mr. Maffett is prepared to furnish upon the shortest notice the most superior hydrant hose and pipes in the market. Having had long experience in the business, he knows just the quality of hose that each particular line which is serviceable, and persons desiring such articles will consult their own interests by conferring their patronage upon Mr. Maffett. He will find him a liberal, fair dealing gentleman, content with reasonable profits, and anxious to dispose of nothing but the best qualities of the articles advertised.

Bloody Spectacle.—Catherine Solinske, residing in Birmingham, made her appearance in Alderman Strain's office yesterday, and attracted more than usual attention, from the fact that her face and clothing were bloody. The appearance was explained by her bringing a charge of assault and battery against her husband, John Solinske, deposing that he struck her several blows with his fist, one of which she received on the nose, causing it to bleed freely.

THE FENIAN FIASCO.

COL. O'MAHONY has seen fit to explain in a published letter a part, at least, of the mystery of the Campo Bello enterprise. According to his statement, fear and jealousy were at the bottom of the ill-conceived and wretchedly managed undertaking. O'MAHONY had his project, which he claims was the conquest of Ireland from British domination. SWEENY had a different scheme, which was the invasion and subjugation of Canada. O'MAHONY thought, if he remained inactive, his retainers would break away from him and go over to SWEENY. This prisked him onto a premature and reckless expedition. To complete his discomfiture, which was sure to overtake him soon enough, the New York *World*, after he started, detailed accurately the whole plan of operations, thus putting both the Government of this country and that of Great Britain on his track. Whether this disclosure was the result of treachery among his followers, and was the result of keen reportorial enterprise following delicate hints with intuitive certainty, it is not worth while to speculate.

While O'MAHONY and his retinue are in mourning over their failure, SWEENY and his set are jubilant. Next to taking Canada, nothing could have given them more unalloyed satisfaction than the embarrassment and confusion of their rivals.

Just at this point HEAD CENTRE STEPHENS made his appearance in New York, having adroitly succeeded in eluding the vigilance of the keepers of a British jail, and making good his escape. He is represented, by almost unanimous consent, as a man of ordinary intellectual capacities; even destitute of that demonstrative will which frequently passes for talent, and is in many exigencies of active affairs, better than the highest mental gifts. It is a marvel what effects followed his appearance. O'MAHONY made servile haste, upon a hint from him, to abdicate his authority and retire into obscurity. SWEENY nimbly sued for commendation. He uttered the mandate, and KILLIAN passed under a cloud of disgrace. At his nod the men who clamored for the invasion of Canada, united in declaring that Canada should not be molested. Both factions appear to forget their mutual animosities in attempts to outdo each other in offering adulation to this man. How long will this last? Will the furor created by STEPHENS lead to any practical consequences? When this idol shall have enjoyed his brief hour of triumph and of command, and been crowded from his stool, who will take his place? Or will the whole organization so effectually collapse that he will need no successor, by leaving nothing to succeed to? These are not questions difficult to answer. The Fenian movement has brought to the surface a number of men, swollen with self-conceit and desire for notoriety; but not a man of marked natural endowments for leadership. Sometimes, in the commotions of a capital, numbers and popular enthusiasm work prodigies in a brief period. A wave of tumultuous violence often suffices to shiver a throne and scatter a dynasty. It is only when such terrific energy falls under the direction and control of superior intelligences that permanent results are accomplished. Herein the Fenian movement is hopelessly defective. Its champions may vapor a little while longer, but its speedy and final frustration is inevitable.

HENRY A. WISE.

THIS individual was the Governor of Virginia under whose warrant JOHN BROWN was hung for treason. When he issued the mandate under which the old man's soul "went marching on," he was himself deeply involved in the conspiracy for treason against the federal government, which flashed out into open rebellion a few months later. When he ordered the hanging of BROWN his own neck was deserving of the halter, and for the same crime, without a circumstance to extenuate his guilt. That he has not been hung he owes exclusively to that policy which seeks *not* "to make treason odious," but to honor traitors.

At Richmond, on the recent anniversary of the death of STONEWALL JACKSON, celebrated with ostentatious parade, under that inspiration from Washington which will, apparently, soon count it an offense "to have worn the blue," Mr. WISE made a speech, in which he said:

"I don't know that I am a prisoner. [Laughter.] I am bound by no chain. I have a pass to go where I please upon the soil of my native land. At least Gen. Grant says so. I may be arrested, but I wanted no man living to tell me whither I might go. [Cheers.] I have the proud satisfaction of saying that I fought until we had won the privilege of being paroled. [Applause.] There is no authority here or elsewhere to arrest me or to stop my mouth so long as I obey the conditions of that parole; and upon that parole I shall stand so long as I live. [Applause.] You call me a prisoner of war; I am not a prisoner of war. If prisoner at all, I am a prisoner of peace. Among the last shots fired by infantry at Appomatox were those fired by the troops I had the honor and pride to lead; and there at Appomatox peace was brought about.

"You call the cause lost; it is not lost. If it is lost, the cause of civil liberty is doomed, for it, too, is lost. There was a Paradise lost and a Paradise regained, and there will be a Paradise regained in this country. The blood that has been spilled is too precious. I should not believe in God if I did not believe that a special providence would yet give victory to and secure the triumph of civil liberty in this country.

"One thing can be said, there was one man who could not be driven to do that which he did not consent to do. As long as one man in this Commonwealth—[a voice, 'What Commonwealth?] What Commonwealth? There never was but *one* Virginia. But I tell you, Old Virginia is not at home. She will come back some of these days, and then the devil take the hindmost. I am watching, and will tell her when she comes what has been done in her absence. I'll say, 'Mamma, your children did not do that. It was done by imposters and pretenders.' Again, I say, there is but one Virginia. They have taken and are wielding her powers. If I am a traitor, let them make the most it. If I am a traitor, why don't they try me and hang me? I have lost my lands and property, but I would clean boots on your streets sooner than bow to usurpation. If I had triumphed, I should have favored stripping them naked. [Laughter.] Pardon! They might have appealed for pardon, but I would have seen them damned before I would have granted it. For myself, the boot being on the other leg, I take no oaths! I ask no pardons! [Prolonged cheers.] I give you that brigade—the old, the lasting, the enduring Wise Brigade. [Cheers and applause.]"

There is not, and never was, another nation on the face of the earth, in which a man, guilty of "the highest crime known to the laws," would be allowed thus to insult the spirit of loyalty. He does it because he knows some of "the powers that be" will be far enough from taking offense at his insolence.

THE CONSERVATIVES are fussing because Chief Justice Chase will not go down to Richmond and call on the trial of Jefferson Davis for treason, until the President shall restore the Civil Law to its proper supremacy in Virginia. How does the case stand? The President, some weeks ago, formally Proclaimed Peace as existing in all the revolted States, except Texas. Upon what plea, then, does he maintain martial law outside of Texas? Was his Proclamation a sham, for some low party end? If martial law is still rightfully supreme in Virginia, why does not the President order Mr. Davis before a military commission? If Peace actually exists, then Chief Justice Chase is right in refusing to hold his Court under a canopy of bayonets.

THE FLAG PRESENTATION.—The Pennsylvania Railroad Company generously offer to transport, free of charge, to and from the flag presentation at Philadelphia, on the next Fourth of July, all surviving color-bearers and color-guards of Pennsylvania regiments. It is desired that lists of such soldiers, wanting tickets, should be in the hands or General NEGLEY, of this city, or of General TYNDYLE, of Philadelphia, on or before the 26th of the present month. Further, that such soldiers should assemble at Harrisburg by the first of July.

DR. LEWIS, of Boston, says that during the prevalence of cholera in the West, the cases of the disease were much the most numerous on the shady side of the streets. He thinks that people who live in cellars are much more likely to take it than those whose dwellings are provided with good ventilation and plenty of sunlight.

A CONVENTION is to be held at Boston, Massachusetts, on the 5th of June, to consider the problem of the training and reformation of vagrant children and juvenile criminals, the present condition of the orphan asylums, pauper schools, and reformatories of the United States, and what additional means are needed to prevent and check vice among the young.

AN election will be held in Texas on the 25th of June next for State officers, and at the same time the amended Constitution agreed on by the Convention will be submitted to the people for acceptance or rejection. It does not appear that there is any serious opposition to the adoption of the proposed amendments. The two parties of the State divide on personal issues, and on the old issues of the war. Those opposed to Secession are now the "Union party," and those who were in favor of Secession are the "Conservative Union" party.

A PHILOSOPHER'S CROTCHET.—At a late meeting of the Royal Society of Edinburgh, Professor Piazzi Smyth gave an account of his recent measurements of the great Pyramid, and his deductions therefrom. Having ascertained that standards of capacity of weight were observed, he was led to look, in the grand gallery, "for the measurement of time." While contrasting the mean height of the gallery with that of the passages approaching it, he found that the height of the latter was about one seventh that of the former. It was in the chamber called the queen's Chamber, which had been such a puzzell to the learned, that he found the most conclusive evidence in support of his theory. The room was seven sided, and not only so, but one of the sides was pushed outwards about twenty-five inches, as if to indicate that while six were ordinary days, the seventh was more noble and glorious."

TO LIVE LONG, GET KNIGHTED.—Here is a bit from an English paper:—"With the aid of "Debrett's Peerage and Baronetage we have arrived at some interesting facts. It is known that the general average of human life in the British Islands is about 33 years. It is, therefore, worthy of note, what effect good living and other accessories of wealth have in preserving life. In 1866-6 there died fourteen peers, whose united ages amount to 601 years, or an average of a little over 66 years each, just double the general average. The eldest (Viscount Combermere) was 90, and the youngest (Baron Kingsdale) 38. In the same period there died forty baronets, whose total span of life was 2,623 years, or an average of 65 each. The oldest two (Sir J. H. Palmer and Sir Thomas Stapleton) were 90 years of age each, and the youngest (Sir A. D. Legard) was 32. But, most remarkable of all, there died 58 knights, whose ages amount to the total of 2,741 years, or the remarkable average of 74 each. The oldest Sir T. W. Austen) was 91 years of age, and the youngest (Sir R. M. Bromley), 32. All who value long life had better be knighted at once. It seems as if knighthood were the *elixir vitæ*."

FREAK OF AN ENGLISH EARL.—The Earl of Aberdeen, nephew of the Governor of Nova Scotia, having recently succeeded to his title and estates, is seeking pleasure in travel under somewhat singular circumstances, namely, by serving as a common sailor before the mast on the British ship Pomona. This ship arrived at St. John on Saturday last, after a very rough passage of sixty days from Liverpool. Immediately on her arrival in the harbor a number of distinguished gentlemen went on board to meet the Earl of Aberdeen who, they were informed by letters, was a passenger. Their inquiries of the captain, who was ignorant of the character of the young Earl, as to the presence of such a distinguished personage, were of course met with a look of astonishment; but they were not long in discovering his lordship among the sailors in the fore-hold where he was dividing up his clothes among and presenting gold pieces to each of his late comrades. Having bid them a most affectionate farewell he joined the party who came in quest of him, and in the most unassuming manner went ashore, where he still remains. It is said that when a few days out the Pomona was compelled by stress of weather to put back to Queenstown, when the Earl humbly entreated the captain to be put ashore. But the captain held him to his articles of shipment, and his lordship was forced to serve out his time as a sailor for sixty days. It is said that this is not the first of his freaks in search of adventure. A few years ago he came to this country, and for some time lived and worked, *incog* among the lumbermen in the wild back woods. He has a penchant for adventure which seems incurable.

SPECIAL NOTICES.

☞ **AYER'S PILLS—Are you sick,** feeble and complaining? Are you out of order in the system derange and your feelings unfortunable? These symptoms are the precursors of serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed to health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangement of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Constipation, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE,

For the speedy cure of *Intermittent Fever, or Fever and Ague*, and indeed the whole *Shill Fever Family*, and even *Periodical Headache or Bilious Headache, and Bilious Fevers, caused by the malarious poisons of miasmatic derangement, caused by the Malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient, as it contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by E. A. FAHNESTOCK & SON & CO., and by all Druggists. mh16.2mw&F

LEGAL NOTICES.

IN THE ORPHANS' COURT OF ALLEGHENY COUNTY, No. 139, March Term, 1866.

May 3, 1866, the petition of Polly Doughty, widow of Jesse Doughty, deceased, late of Reserve township, said county, was presented to the Court, setting forth that said decedent died July 12th, 1862, leaving a last will and testament, and codicil thereto, in and whereby he devised all his real and personal estate to petitioner during her natural life, and after her decease to be divided equally between decedent's brother, Lewis M. Doughty, and his sister, Hester Ann now the wife of William Shaw, that by a codicil to said will the testator directed that if there should not be sufficient income from his estate for petitioner's support, that the executor to sell and convey any part of his real estate for her use and support; that said testator appointed Henry R. Kern executor of his said will, but that said executor declined to serve, and Letters of Administration, with the will annexed, were issued to Dr. John E. Shafer, of said Borough of Etna, that decedent died seized of about 100 acres of death three lots of ground situate in said borough, one of which only was sold and conveyed by Samuel McCune 22d October, 1864, for the sum of $250, by proceedings in Orphans' Court, at No. 138, June Term, 1861, does appear that the personal estate of said testator has been exhausted for the support of petitioner, and also the proceeds of the sale of said lot, and praying the Court that the widow be allowed to the said John E. Shafer, Administrator de bonis non, or other competent person, for the sale of the remaining part of said real estate, being the first two described lots of ground in the petition, for the support of petitioner, according to the direction of the said last will and testament, and showing that said Lewis M. Doughty lives at Waterford, Lawrence county, Ohio, and that Hester Ann Collier lives at Portsmouth, Scioto county, Ohio, whereupon the Court made the following order:

And now, May 5, 1866, petition being presented and duly considered in open court, the court have set a citation to issue to said Dr. John E. Shafer, Lewis M. Doughty, William Collier and Hester Ann, his wife, requiring them to be and appear in court on SATURDAY, the 26th day of May, inst., at 10 o'clock, A. M., to answer the prayer of the petitioners, when time will be granted unless cause be shown to the contrary, and the court direct that notice be given to the parties residing out of the County of Allegheny, by publication in the PITTSBURGH GAZETTE three times at least ten days before the return day, and that one copy of said paper containing said notice be sent by mail, addressed to each of said parties.

CITY AND NEIGHBORHOOD.

(ADDITIONAL ON FIRST PAGE.)

Shovers of Counterfeit Money Arrested—A "Dealer" Sought After.

The advent in our city of counterfeit "twenties" on the National Bank of Portland was was noticed some days since. This money, it appears, has been "shoved" pretty extensively in the western part of the state, and it is evident that there are a number "dealers" about, who, so far, have managed to elude the vigilance of the detectives. It is believed, moreover, that the headquarters of an organized gang of "professionals" are in this city, this conviction arising from certain fact, which have come to light within a few days, and, if this be true, our police will lose whats ever reputation for shrewdness and industry they now enjoy, should the scoundrels succeed in eluding them.

Before United states Commissioner Sproul, yesterday, two men were brought, accused of passing the Portland money. Their names are William Wilson and John Haggerty—the former a resident of West Brownsville, and engineer on the Brownsville packet "Franklin," and the latter a pedlar, who claims residence in Greene county. They were arrested by officer G. H. Fitzsimmons, of Greenfield, Washington county, on Friday of last week. We conversed with one of the accused, Haggerty, who was surprisingly communicative, and obtained the following account of himself and comrade in tribulation. On Sunday, week, on board the "Franklin," at the Monongahela wharf, Wilson introduced Haggerty to a man, from whom he (Haggerty) purchased $300 of the Portland notes, giving $100 in good money. Haggerty went to Greene county and purchased two horses, one from Noah D. Clutter, of Rich Hill township, for $195, and another from Henry Fistleiver, a neighbor, paying him $200. The money paid consisted of the counterfeit notes, excepting fourteen dollars, which were genuine. Haggerty proceeded with the horses as far as Greenfield, and stopped at the tavern of Mr. William Dawson, at that place. For some reason he was looked upon with suspicion, and it was finally concluded that he had stolen the horses. To prove that this was not the fact, he sent for Mr. Clutter, by whom he hoped to secure his release, for he was under surveillance. Mr. Clutter, who had in the mean time discovered that the money he received from Haggerty was counterfeit, accepted the fourteen dollars, was in pursuit of him, with a view to his arrest. Hearing of Haggerty's whereabouts, he proceeded to Greenfield, and relieved him of the imputation of horse stealing, but accused him of passing counterfeit money, producing the $61 he had received from him. Haggerty acknowledged his guilt, and said he did not make the least attempt at concealment. He was taken into custody and searched, when he had in his possession $61 in "queer" money, found in his pocket book. From his manner, and the perfect freedom with which he acknowledged his transactions, we are led to believe he has his first offence of the kind. He stated that in February a year ago, when stopping at Lanahan's tavern on Penn street, he was approached and asked to go into the business, but refused.

Wilson was arrested at his residence in West Brownsville. Aside from his having furnishing Haggerty to the "dealer," Mr. Wm. Dawson, examined as a witness by the Commissioner, testified that he saw, some time prior to the arrest, $1,200 in counterfeit money in his possession. He was by no means as communicative as his more communications comrade.

The accused were held to bail in the sum of $3,000 each for their appearance for trial. The horses purchased by Haggerty were recovered by their owners.

The name of the individual who sold the counterfeit money to Haggerty is given as John Verbank. He is said to be well-known in Washington and Greene county, having made frequent visits there in the pursuit of his "business." His arrest, or disappearance from this locality, would be hailed with satisfaction by all honest men of our community.

An Immense Establishment.

We paid a visit yesterday to the immense china, glass and queensware house of Richard E. Breed, No. 100 Wood street, and were really surprised at the tremendous display of stock on hand.

The building is four stories high. The two first stories are devoted to salesrooms, the third for the storing of glass, of which there is an endless variety, from the common flint tumbler to the elegantly ornamented finger bowl. In the exhibition room, on the first floor, is worthy of a visit from those who can appreciate taste and chaste neatness, combined with rich and splendid display of glass, china and silver ware. In the centre of the room stand large show-cases of plate glass on pedestals about four feet in height. These cases contain samples of table ware and cutlery, among which is a set of silver ware, including tea urn, cups and sauces, sugar bowl and tongs, in fact all the paraphernalia requisite to set a State feast at St. James' or the Elysian. Besides this, Mr. Breed's establishment is stored with rare articles of value, of the most unique design and artistic finish, which is even a pleasure to gaze upon. To housekeepers we would say, go to Breed's before purchasing elsewhere.

Presentation of Flags at Philadelphia.

The Fourth of July next, in Philadelphia, promises to be celebrated in a manner heretofore unsurpassed. On that day there will be gathered together the flags borne by Pennsylvania organizations through the blood and carnage of battle during the rebellion, for restoration to the Governor, afterwards to remain the property of the State. The Pennsylvania Railroad has tendered free transportation to such of the real heroes of the war—the soldiers—who desire to be present on the occasion. As many as can, are desired to assemble at Harrisburg on the 1st of June, to which place transportation will be furnished on application to the members of the committee representing the district in which they reside. It is suggested that the members of the Transportation Committee should secure lists of the surviving color bearers and color guards, and forward them to Gen. Negley, at Pittsburgh, on or before the 26th inst., in order to avoid any delay in procuring tickets.

Work Commenced.—Yesterday the grading of High street, between Wylie and the new extension of Fifth street, was commenced, preparatory to paving. By the construction of the railroad tunnel, and the Fifth street extension, the grade of High and adjacent streets has been materially changed, and a large ammount of filling remains to be done, by which property in the neighborhood will be more or less damaged. The board of viewers, appointed to determine the damage which will be caused by the raising of the grade of the lower portion of High street, and Pennsylvania Avenue, from a point about seventy-five feet south (of High) to about the foot of Tunnel, have met on several occasions, but have not as yet come to a conclusion.

Another Habeas Corpus Case.—The writ of *habeas corpus* granted by Judge M'Candless, on Monday, on the petition of Catherine Cosgrave, was dispensed of yesterday morning. The petition set forth that her son, John Cosgrave, was restrained of his liberty by Maj. A. L. Smith, recruiting officer for the regular army, and not detained for any criminal or supposed criminal matter. The relator established the facts that her son was a minor, (under eighteen years of age,) and that his enlistment was made without her consent, whereupon the Court ordered his discharge, and directed the costs to be paid by the United States. J. N. M'Clowry, Esq., appeared as counsel for the relatives.

A Landlord and Tenant Case—between Chas. B. Taylor and James McKee—before Alderman E. S. Morse, of the Eighth ward, has been the source of much research and vexation on the part of lawyers and the parties concerned. Yesterday a compromise was suggested, the defendant agreeing to pay the rent due, $50, provided the plaintiff would pay the costs, $7.50. It was no go, however, and it is probable that the matter will finally be settled upon to-day before the magistrate, as whatever may be the judgment of the magistrate, it will be appealed from, so confident is each party that he is in the right.

Had his Arm Split.—Tuesday afternoon, Francis Papillon, employed as W. & D. Rinehart's tobacco manufactory, on Wood street, met with a very serious accident. He was operating with a large knife, used for cutting tobacco, when from some cause he came in contact with his left arm, splitting it in a longitudinal manner, and passing between the bones, severing articles and muscles, and causing profuse hemorrhage. His injuries were properly attended to at the office of Dr. Walter, whither he was removed after the occurrence.

Placing Ashes on the Street.—The activity and industry of Street Commissioner Flinn, in the discharge of his duty, is worthy of commendation. Scarcely a day passes that he does not prosecute persons for maintaining nuisances and violating city ordinances. Yesterday he made complaint before Alderman Strain, against Loading Smith, saddler, of Pennsylvania Avenue, for placing ashes on the street. Smith was discharged on payment of costs.

"Gallupe's Butcher."—Mr. P. Tosh, who butchered to the entire satisfaction of the "Fifth Regiment" during the late encampment in Virginia, in the last year of the rebellion, is pursuing his avocation in Birmingham, and we are glad to learn is prospering finely. He boasts that he sells as prime meat, at as fair prices, as any butcher in this locality. Success to you Peter, and don't forget "headquarters."

Severely Injured.—On Tuesday Patrick Kelly, a laborer, residing on Wylie street, while employed near the outer depot of the Pittsburgh, Fort Wayne and Chicago Railroad, was very severely injured by the giving way of an embankment. He was buried by the mass of earth, and when extricated it was discovered that his left thigh and left leg were broken. Dr. A. G. Walter was the attending physician.

Another Circus.—Mike Lipman's Colossal Combination—circus and menagerie—will exhibit in the city next week. On Friday and Saturday it will be in Allegheny, and next week the canvas will be pitched on the lot in the rear of the Red Lion Hotel. It is said to be an exhibition on a more than usually large scale.

Held to Answer.—Rosanna Haney, a denizen of the Seventh ward, accused by Matilda Kimberly, before Alderman Strain, of selling liquor on Sunday, had a hearing yesterday forenoon, and was held to bail for her appearance at Court.

Presbyterian Assembly.—The General Assembly of the United Presbyterian church will meet in the Second Church, Allegheny, (Rev. D. J. B. Clarke), on Thursday, 31st inst. The opening sermon will be preached by Rev. J. B. Clark, D. D., the retiring Moderator.

Home Mission.—The Home Mission Board of the United Presbyterian Church will meet in the Second Church, Allegheny, on the 24th inst.

FINANCE AND TRADE.

WEDNESDAY, MAY 16, 1866.

Gold has undergone but little change today, being quoted in New York at 129¾@130. Government bonds steady at 109¾ for 1881's; 101½ for 5-20's; 96 for 10-40's; and 103¾ for 7-30's. In our local stock market there was but little done to-day. We can report sales of Bank of Commerce at 107½, and Columbia oil stock at 18¼. We hear of offers to buy Bannet oil stock in round lots at $100 per one thousand shares, and Pittsburgh & New York is offered at about same figures without finding buyers. Ritchie oil stock is in demand at 30c per share, and but little offering at this figure.

—The Pennsylvania Central Road received in 1865 from the main line, the Pennsylvania Canals and the Philadelphia and Erie Roads:

Received	$19,714,325 00
Expenses on all these lines, includ. ing 30 per cent reserved to pay interest on debt P. and E. R.	15,894,671 00
Balance	$3,819,654 00
The payments made during the year to the shareholders, of two semi-annual dividends of 5 per cent each, the balance of interest and coupon accounts, the lease of Harrisburg and Lancaster Railroad, taxes on dividends and coupons, $433 61 sinking fund and annual sum due to the State ($460,000 for the purchase of the Main Line, amounted to	3,597,496 98
Leaving a surplus of	$222,157 35

This result is exhibited after charging all expenditures for new work, and additional rolling stock, &c., amounting in the aggregate to $2,388,128 50, together with an installment of $500,000 upon the principal of the debt due the State, and losses on leased railroads, to expense account.

The present condition of the Company's property cannot but be viewed with great satisfaction by its shareholders. Estimated at its specie value, it may be safely stated as follows:

Main Line of Railway, branches and extensions, including shops and depots, Harrisburg and Lancaster Railroad, and Canal		$31,040,000
Equipment of all the Company's Railways	8,000,000	
Real Estate	3,000,000	
Materials on hand, cash and cash balances	3,500,000	
Investments in other lines	9,500,000	
		$55,000,000

LIABILITIES.

Capital stock	$20,000,000	
Stock, Harrisburg and Lancaster Railroad Company	1,182,500	
Funded debt	10,585,000	
Bonds of Harrisburg and Lancaster Railroad Company ($700,000), and other obligations, say in all	2,232,500	40,000,000
Surplus, over the capital stock, would make its real value		$15,000,000
Which, at present, is the capital stock, would make its real value		$55,000,000 instead of $20,000,000.

—As the failure of Work, McCouch & Co. has created considerable excitement both here and in Philadelphia, we make the following extracts from our Philadelphia exchanges in regard to the matter:

The street was much excited yesterday over the announcement of the failure of the firm of Work, McCouch & Co., bankers and brokers whose liabilities were stated to be upwards of a million of dollars. It is the old story over again, "fighting the bull," according to "high toned and respectable" practice, otherwise stock gambling of the most nefarious character. It has been for some time past that this firm was engaged in cornering the stock of the Hestonville railroad, the price of which, under their manipulation, was run up from twenty dollars a share to forty-five. As is usual under such circumstances, a "pool" was made into which several parties were admitted, and the sequal shows that there was more stock for sale than was calculated on. It is also alleged that some of the parties to the cornering arrangement have been playing "smart," as the phrase goes, on the principal dealers in the stock on the street, and unitedly, and compelling the chief operators, Work, McCouch & Co., to purchase it at high prices, until they accumulated some twenty-five thousand shares, on which they suffer a loss of half a million of dollars. To the few who understood the character of the operations in which this firm was engaged for some months past, the failure occasioned no surprise, but to the general public it was unexpected, and like a bombshell, as the credit of the house had always been well sustained, and was considered as A No. 1. The reverse of this was so sudden, that it announced that the firm of Work, Graham & Co. had gone by the board, and this fact doubtless gave rise to rumors in regard to other parties, in reference to which we were unable to get any definite or reliable information. There are circumstances connected with the conduct of this house and its bankruptcy which are of the most disreputable character, and there will doubtless be a healthy ventulation of the matter in the course of two or three weeks, beyond its intimate connection with a highly respectable firm in Pittsburgh, which cannot scarcely stand up under this disaster, we are not advised of any other parties likely to be seriously affected.—*News.*

—The suspension of three prominent banking firms yesterday was the occasion of no little excitement at the Stock Board and financial circles generally. The parties are well known on the street, and have always stood in high credit. The cause of the failure was inordinate stock speculation, mostly in Hestonville Passenger railroad, of which the parties were large holders, and being unable to carry the self-imposed load, were obliged to succumb. The losses thus entailed upon innocent parties is understood to be slight, as Hestonville speculation was entirely a broker's affair, a "diamond cut diamond," the outside public having been drawn in to an extent quite inappreciable. Outside the city we hear of no one being affected, except it be Kramer, Rahm & Co., of Pittsburgh, who are stated also to have gone under. The Hestonville speculation has been a somewhat unfortunate one in many respects to those who have been engineering it. It is but a few weeks ago that the direction of the road was said to be in failing to fulfill his contracts with the *bulls*, hastened, no doubt, the event which was the sole topic of discourse in stock circles yesterday. Had there been no breach of faith among those who were depreciating the stock, yesterday's failures would likely have been averted.—*Press.*

—The share market was a good deal disturbed by the announcement of the failure of Work, McCouch & Co.; Work, Graham & Co., and R. F. Radley, all bankers, and each of the three houses doing a large business. The first named firm is a well-established house, and has ever enjoyed excellent credit. Its Western banking business is large, the sole company of the firm being the wealth and well-known bankers, Kramer & Rahm, at Pittsburgh. The failure was brought about by speculations, mainly in Hestonville Railway shares. Their accounts were a good deal unsettled yesterday, and the amount of deficit on their liabilities was not ascertained. The checks borrowed by the house from various brokers on Saturday, when it was discovered that the amount was insufficient to meet the liabilities of the day, were held unused, and were honorably returned to their respective drawers yesterday morning. At the close of the day the expectation of the firm was that they would be able to so arrange their liabilities as to resume business in a short time. The house enjoys the liveliest sympathy of the entire street. The business of the firm of Work, Graham & Co., has been more largely in fancy stocks, and the credit of the house has been more or less impaired by unsuccessful operations for some time past. The resumption of business by the house is not thought so probable. R. F. Raley did a small banking business, and on the street enjoyed fair credit. His failure is probably attributed to carrying stocks for his customers on the money of depositors, for which he paid interest. These failures carry with them their own commentary. They are fairly attributable to stock speculations, and the result is that of the history of Third street for the last twenty-five years in all operations of the sort. The most experienced and most reliable brokers do not gamble in stocks, and an intimate connection with them and their business for more than a quarter of a century is confirmatory of the wisdom of their course. We have never known a broker who was a persistant speculator in stocks that did not eventually fail. Let all young operators in the business remember this fact.—*Phila. Ledger.*

—The Titusville *Herald*, of Tuesday, reports oil matters as follows:

Oil is firm at the wells and has slightly fallen off in the eastern markets. The Pittsburgh operators with a large stock on hand, are halting between two opinions, afraid to sell at the present figures, and doubtful as to the future condition of the market. The Cleveland operators are sending oil through to New York for $1.50 per barrel, via the Erie canal. This is a very cheap means of transportation, the rate of freight from Buffalo to New York is 70c per barrel, while the canal companies are not carrying as much oil as they anticipated, not being able to command any more than they can find in the immediate vicinity of the railroad track.

The demand for oil at the wells is still active, $5,55 having been paid for oil to-day on Pioneer Run. The system of gambling in the eastern markets is very deceptive in judging of the future price of oil, many of the transactions being merely on paper without any actual transfer of the oil. It must be self-evident that if $5,55 is paid for oil at the wells, this price which is actually paid, must be based upon orders from some quarter, or oil has been paid for a rise. Oil has been advancing steadily ever since the 10th day of April, when it was 24c in New York.

Chicago Market.

CHICAGO, May 16.—Flour dull and tending downward. Wheat still unsettled, opening at 91 69@1 69½, and closing at about $1 65 for No. 1 and $1 10@1 15 for No. 2. Corn declined 1@1½; market moderately active at 50@50½ for No. 1 and 47½@48 for No. 2. Oats dull at 38½@ 39¾. High wines dull, at $2 18@2 19. Provisions dull.

FREIGHTS active; 10c. on Corn to Buffalo.

RECEIPTS—6,600 bbls. Flour; 37,000 bls. Wheat; 156,000 bush. Corn; 40,000 bush. Oats.

SHIPMENTS—10,000 bbls. Flour; 26,000 bushels Wheat; 149,000 bush. Corn; 149,000 bush. Oats.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, } WEDNESDAY, May 16, 1866.

The produce markets continue quiet but steady, and while the demand for most of the leading commodities is somewhat less active, prices have undergone no quotable change.

GRAIN—Wheat is firm and in fair demand, but we have no sales to report. Oats in good supply, and a shade easier; sale of 1 car Western at 50, and we hear of quite a number of offers to sell at the same figure. Corn is in better supply; sale of 1 car Shelled at 80; also small sales at 90. Barley and Rye quiet and unchanged.

FLOUR—The market is less excited, but there is a continued fair local demand, and prices are still maintained. We can report regular sales from store at $10,75@11,50 for Spring Wheat, and $12,50@13 for good to choice brands of Winter Wheat. Rye Flour is scarce and higher, being held at $6,50@6,75.

PROVISIONS—Bacon is steady, with a very fair jobbing demand, but prices remain unchanged. Sales at 14¼@14½ for Shoulders; 17 for Ribbed Sides; 21½@22 for Plain Sugar Cured Hams; and 23 for Canvassed do. Lard is quiet at 23, for prime city; sale of 1400 pounds country at 21. Mess Pork is held pretty firmly at $34@32,50.

POTATOES—Not so much excited, but steady and firm. Sales of prime Peach Blows in a regular way from store at $1,35 to $1,40 per bush, and $3,75@4 per bbl. Sale of 1 car Chicago Potatoes at $1,37 per bushel, sacks included.

BUTTER—Continues dull and in good supply, and the arrivals are increasing. Prime roll is held at 35, while common cannot be quoted above 20@22.

EGGS—In fair demand, but prices are a shade firmer. Sales reported at 18@20—mostly at 19@20.

CHEESE—Quiet and unchanged. Sales of new Western Reserve at 17@18.

SALT—Is quiet, the demand being light and entirely local. Small sales at $2,50 per bbl.

ASHES—Pearls firm, and in fair demand but unchanged, 13c. Pot Ash quiet at 8@8½. Soda Ash is dull and nominal at 5½ for common, and 6¼ for Refined.

SORGHUM—Sales of 10 bbls prime at 60.

OIL—No. 1 Lard is still quoted at $1,85, and No. 2 Whale at $1,90.

HAY—Is quiet and unchanged; sales at scales at $18 to $25 per ton, as to quality. But little Baled in market, and but little offering.

FLAXSEED—Is quoted at 95c.

GREEN APPLES—Sold to-day at $10 to $12 per bbl, as to quality.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, } WEDNESDAY, May 16, 1866.

CRUDE—The demand for Crude was remarkably light to-day, both shippers and refiners holding off in anticipation of a decline, and, as a consequence, we have but very few sales to record. Prices however, remain nominally unchanged, ranging from 15 to 15½, bbls returned, and seller's option, though the latter is said that some round lots were offered at a shade less than fifteen. Sale of 200 bbls at 15; 100 at 15, and 75 at 15¼. Telegrams from Oil City to-day state that the market is declining at the wells—quoting at $4,75@5, against $5,50 yesterday. From the east, the advices are by no means encouraging, the demand being very much restricted, and prices altogether nominal.

REFINED—There is no improvement to note in the condition of the market for bonded oil, though there is very little oil offering here, and the present stagnation, therefore, has had but little influence on our refiners. As a general thing, they are easy to make contracts for future delivery, and as buyers are unwilling to operate unless at a decline, they are disposed to keep their oil and take the risks of the market. We have but a single sale to report, 500 bbls, standard white, on the spot, at 43 cents, in Philadelphia. The failure of Work, McCouch & Co., in Philadelphia, seems to have created some considerable confusion as well as entailed some loss on oil dealers in the East, and this, together with the unfavorable character of the foreign news, have tended, more than anything else to bring about the present appearance and stagnation.

NAPTHA AND RESIDUUM—There is some little inquiry for Residuum, and we hear of occasional small sales at $3,50 to $3,75 per bbl free on board cars here. Naptha is utterly neglected.

ARRIVALS—The arrivals of oil by the Allegheny River since our last report, were as follows:

W. P. Logan	100	Fisher & Bro	1500
C. Berringer	235	W. Haldeman	267
J. Mawhinney	262

Financial Matters in New York.

NEW YORK, May 16.—Money market easy at 6@8 per cent. on call loans. Sterling quiet at 109½@109¾. Gold declines in the board to 129¾ at the issues of 1864 and 1865 ¼c. 7-30s and 10-40s retained late quotations. Gold is excited under the active movement, and the Assistant Treasurer is a seller, at best prices—over 130, and the source of supply has checked an advancing tendency, which would probably have produced more violent fluctuations than have been experienced for some time past. Of course those who had gone long in gold, without taking into account the possible contingency of the government coming into the market, are loers, in their condemnation of the action of the Treasurer. Money is a drug upon the market. There is an inquiry for large amounts at 4 per cent. for the purpose of gold speculations, and for specie purchases of the 5-20s being returned from Europe; but it is not found easy to procure any large amounts at that rate. The prevailing rate on call loans is 5 per cent. Prime paper continues comparatively scarce, the rate on short dates being 9@ 10 per cent., and on three and four months bills 10@12 per cent.

Foreign Exchange nominal, at yesterday's closing quotations.

At the first call o'clock the sales were as follows: Ohio Certificates, 27; Canton, 61½; Boston Water Power, 45; Cumberland Coal, 36; Spruce Hill Coal, 15; Western Union Telegraph, 59; Reading, 107½; Quicksilver, 53¾; Michigan Central, 109¾; New York Central, 93½; Erie, 74¾; Michigan Southern, 79¾; Pittsburgh, 85; Rock Island, 95¾; Northwestern, 58¾.

The shipment of gold to-day is larger than has ever been reported in one day, the government broker is reported to have sold, at 130¼ to-day, the extraordinary amount of three millions.

MINING STOCKS.

The prices of Mining Stocks bid in Boston to-day are as follows: Copper Falls, 42; Franklin, 44¾; Hancock, 19; Boston Water Power, 42; Isle Royal, 11; Minnesota, 11; Quincy, 49½; Bay State, 13.

New York Market.

NEW YORK, May 16.—Cotton 1@2c better, at 34@35c for middling. Flour is dull, and common and middling grades are 10@15c lower, at $8,20@8,65 for extra State, $9,20@9,90 for extra round hoop Ohio, $9,50@13,75 for trade brands, the market closing dull. Whisky quiet and unchanged. Wheat opened steady, but closed dull and declining, at $1,70@1,75 for Chicago spring. Corn 1@2c lower, at $1,06@1,07 for very choice do, $2,55 for old white red western, $2,75@3 for good to prime white Michigan, and $2,62 for old Amber Michigan, to arrive soon from Liverpool. Rye quiet. Barley and Barley Malt dull and nominal. Corn heavy and 1@2c lower, at 78@80c for unsound, and 86@87½c for sound mixed western, in store and delivered. Oats dull, at 69@ 70c for new western, and 58½@60c for old do. Petroleum quiet; crude 27@27½c, and refined 35@41@42c. Pork heavy and irregular, at $30,45@30,75 for new mess, closing at $30,50 cash, $29,50@29 for old do, and $24,50@25 for prime, also, 5,500 bbls new mess for May, June and July, sellers and buyers' option, at $25,75@31. Beef steady, at $16@21 for new plain mess, and $21,50@24,50 for new extra mess. Beef hams firm, at $17@18. Bacon quiet. Cut meats firm, at 12¼@13½c for shoulders, and 17½@19c for hams. Lard quiet and steady, at 19@22½c. Butter dull, at 22@33c for Ohio, and 35@48c for State. Cheese dull, at 13@23c.

Dry Goods and Carpets.

NEW YORK, May 16.—Dry goods are steady and firm to-day, with very little change in leading makes of domestic goods.

Carpets; velvets, Crosley's best, $3,50; do, a 1 quality, 3,30; do patent, 3,00; Body Brussels Roxbury, 2,75; Bigelow, 2,75; Tapestry Brussels Crosley 1,75; Roxbury 1,65; Lowell extra 1 ply, 2,15; Super, 175; Medium super, 1,60; Hartford Carpet Co, extra 3 ply, 2,75; superfine 1,75; Imperial 1,60; Lowell super, 1,60; common ingrain, 1,60 to 1,40; Hemps, plain 33c.

Baltimore Market.

BALTIMORE, May 16.—Flour dull, with a declining tendency. Wheat firm; Pennsylvania Red $2,82. Corn dull, White 85 and Yellow at 80. Oats steady at 61@62. Provisions firm, Lard 21½c. Whiskey dull. Western, $2,26@2,26½; Pennsylvania $2,25½@2,27½.

St. Louis Market.

RIVER NEWS.

RIVER, WEATHER, ETC.

The river was about stationary at this point yesterday, with four feet four inches in the channel, by the marks last evening. The telegraph reports the Allegheny rising at Franklin this afternoon, and raining, with thirty inches in the channel. Here, the weather was cloudy and unsettled yesterday, with every indication last evening of rain.

The Julia, from Marratta, is the only arrival we have to report from below. She was unable to reach Zanesville, the Muskingum River at the mouth being so shallow that it was found impossible to enter the first lock. She therefore exchanged trips with the Emma Graham, and then turned round and came back.

The Columbia, from St. Paul, will doubtless reach here to-day, as there is now enough water to let her up. The Importer, from St. Louis, will, also, probably arrive to-day or to-night.

The Fayette and Chieftan, from Brownsville, and Geneva, were due here last night, and will doubtless be found at the landing this morning. They are both first-class steamers, having excellent accommodations for passengers, and is in charge of careful and experienced officers. The former leaves again this evening at five o'clock, and the latter an hour later, six.

The Bayard is due here from Parkersburg this morning, and will leave again at 11 a. m.

The following boats were in port last evening. Wauanta, Argonaut, Glasgow, Leonidas, Kenton, Armadillo, Kate Putnam, Julia No. 2, New State, Forest City, and Urilla. The Argonaut has a shingle out for St. Louis and St. Paul, and the Kate Putnam for Cincinnati, though neither one are doing anything. The Urilla is waiting for low water to take the place of the Bayard in the Parkersburg trade, and the Forest City is having her shaft repaired.

The Armadillo, in command of Capt. D. H. Sweeney, is filling up rapidly for St. Louis, and will leave this evening. This five steamer is in excellent condition for business, has superior accommodations for passengers, and is in charge of careful and experienced officers. Mr H. Lowry still retains charge of the office.

The tow boat Tigress passed Cincinnati on Monday on her way to Pittsburgh, and the Leonora and Robt Moore, were advertised to follow the former on Tuesday, and the latter on Thursday. The Telegraph en route from St. Louis to Pittsburgh, arrived at Louisville on Saturday last. This boat has a considerable quantity of flour for this market.

We find the following in the St. Louis *Republican*, of Tuesday:

Yesterday was noted for a combined strike on the levee, the white and black laborers having combined for the purpose of compelling steamboat Captains to pay an increased rate of wages. The demand was at first $3 per day on the levee and $50 per month "under weigh" but soon raised to $40 per month "under weigh," and 50c per hour on the levee. Several steamers were compelled to submit.
